

New Jersey Association for the Education of Young Children

Inquiry Based Learning

with Jason Verdone

LRC at Camden County College

When: Tuesday, Nov. 28, 2017
Sign in-6:30PM, Start-6:45PM

Where: Trinity Nursery School, Route 70, Cherry Hill

Summary

This workshop will help participants discover what inquiry based learning looks like in the early childhood environment. The central focus will be making the connection between learning through play and inquiry based learning. We will look at the teacher as facilitator using higher level questioning techniques. As usual, Jason Verdone will present plenty of hands-on activities and participants will leave with new ideas for their classrooms.

2 training hours
